New Product Summary

3LCD

Epson EB-G5300/G5350

When image is everything, real value stands out

Epson EB-G5000 Series projectors are powerful, bright and can be ceiling mounted to reach large audiences. A unique mix of innovative features and smart design simplifies installation, operation and monitoring to dramatically enhance the visual experience of you audience. Built to strict environmental standards, they are cost efficient and provide long-term value.

These projectors are ideal for very large corporate meetings or shareholder gathering; for theatres and halls in educational or cultural institutions; for digital signage in airports or shops; for special events such as lectures, civic celebrations or sports tournaments.

Intelligent Installation

The Epson EB-G5000 Series are incredibly compact and weigh less than 7Kg, which makes all the difference when mounting them on a ceiling.

From the front, the lens unit is centred, so aligning the projector is simple and the modular lenses are bayonet-mounted in a single movement.

They are quick to change yet once in place can be totally secured by an anti-theft screw. Lens shift* allows the position of the image to be adjusted horizontally and vertically with no loss of image quality.

Easy Maintenance

The new longer lasting lamp can operate for up to 3000 hours of normal use and the redesigned electrostatic filter is both highly efficient and extremely durable.

When the filter and lamp eventually have to be changed it can be done in a minute. They are easily replaced through a side access so there is no need to remove the projector from the ceiling mount.
EB-G5300 key features

- 5000 lumens for presentations even in bright conditions
- Save time and reduce running costs with remote network monitoring
- Wide choice of optional lenses to suit installation requirements
- Flexible connectivity including two computer inputs and HDMI
- Simple to set up with horizontal and vertical lens shift

EB-G5350 Additional Features

- Present directly through wireless or wired networks
- Certified for Windows Vista™ Network Projector Function*
- Run up to 4 projectors from one computer for panoramic images or multi-screen presentation
- Keep file transmission secure with market-leading wireless security
- Deliver presentations without a computer – show presentations, movies or pictures from SD card or USB memory

CERTIFIED FOR Windows Vista®

EB-G5350 Special Features

EasyMP™

Seamless Wireless or Wired Network Integration - The EB-G5350 can be quickly integrated into your local area network. Take full control of your projector remotely, monitor status and even project your presentations via the network
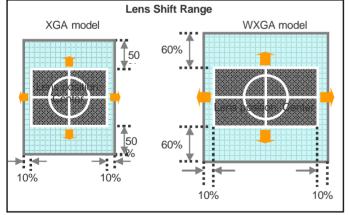

PC free flexibility - Presenting without a PC makes the whole process smoother and simpler. In addition to SD memory cards, you can present directly from a USB memory stick

Supported formats

Image: .bmp / .jpg / .png / .gif

Movie: .mp4 (Video:MPEG4, MPEG4 AVC, Audio: AAC) .mpg (Video: MPEG1, MPEG2 / Audio: MPEG-1 Layer2, PMC) .wmv (Video: WMV8, WMV9 / Audio] WMA, LPCM)

Presentation scenario: **.sit (created by Slidemaker2)**

Innovative multi-screen display

(Not supported by Windows Vista™)

Now you have the power to make a really big impact, with up to 4 projectors presenting from just one computer simultaneously, and even wirelessly. Choose either a large panoramic image or 4 independent images to offer your audience a true multimedia experience.
